8. Use Instructions

1. Fill this form for production jobs requiring traceability, inspection evidence, customer review, council review, government body review, complaint investigation, product failure investigation or internal quality release.
2. Complete Sections 1-4 before release. Complete Section 5 if any hold, defect, rework, concession or corrective action occurs.
3. Upload the completed PDF or scanned copy into Compliance & Licences under Quality / Process Sheet, or attach it to the related raw material, packaging or job record.
4. Keep original supporting evidence with the job record: photos, drawings, material certificates, inspection results, approval emails and delivery documents.
5. This is an internal controlled evidence template. Confirm any site-specific statutory form with your local council, regulator, customer contract or certifier.

Controlled Document Notice

Voxel Veda Pty Ltd should review this form when process, product, customer, site, council or regulatory requirements change. Retain completed copies according to company record-retention policy and applicable contract or statutory requirements.
